Town of Harmony
S4102 County Road O
Viroqua, WI 54665

Dear Clerk Parr,

Thank you for your engagement with the MariBell Transmission Project (Project). We received the Township's resolution.

As you are aware, the Project is an approximately 140-mile 765/161 kilovolt transmission line that will be built between Marion, Minnesota and Bell Center, Wisconsin. We anticipate filing a proposed routing application for the Wisconsin portion of the line with the Public Service Commission of Wisconsin (PSCW) in the fall of 2026. During the course of the proceedings before the commission, the public will have multiple opportunities to provide comment. After independent analysis and public input, the PSCW will issue a final decision on the transmission line route.

In the meantime, we wanted to provide you with our responses to similar questions from Crawford County. For more information about the Project, please visit the project website at [MariBell Transmission](#), which contains information about the Project and additional opportunities for engagement with the project team.

Please reach out to a member of our team if you have additional questions at eric.jacobson@dairylandpower.com.

Sincerely,

MariBell Project Team
