

## **Finally!!**

### **Dairyland to Make a 765 kV Presentation Before the Vernon County Board**

#### **Mark your Calendar:**

Thursday, February 19, 9:30 AM; Vernon County Board Meeting Room. 3rd Floor, 400 Courthouse Square, Viroqua, WI

Landowner and citizen requests to the Vernon County board to adopt an Information Request Resolution seem to have prompted Dairyland Power Cooperative to request an opportunity to make a presentation about their 765 kV transmission line proposal to the full County Board!

Many thanks to opposition volunteers who have sustained requests to Dairyland to start conducting substantive landowner and public outreach.

Not only is the presentation of great interest, attending the presentation in-person stands to make a clear, oppositional statement to the Board as it considers adoption of the resolution.

It is customary in Vernon County for citizens to respectfully attend and observe county board meetings when important matters come before our supervisors. If you attend, in-person, you are perfectly welcome to listen but not to interrupt the board meeting or presentations by speaking, making sounds or actions. Creating disruption will reflect badly on our opposition goals.

Please consider filling up your car with neighbors and using this opportunity to send a powerful and constructive message!

One may also observe the board meeting and be 'virtually' counted by using the TEAM app: <https://bit.ly/VernonCoBoardMtgOnLine-Teams> or \* Meeting ID: 226 187 660 492 75 Passcode: Dd9PM9Yo+1 469-214-8605,,571359180# Phone conference ID: 571 359 180#

#### **Public Information Meeting**

We will host a public information meeting on February 22, 2026 at 1:00 PM at the Gays Mills Commerce Center. Attached is a press release with details!
